

KATSON EDUCATIONAL SERIES

# ENGINEERING *and* GENERAL GEOLOGY

*for*

B.E. (Civil, Mining, Metallurgy)  
B.Sc. (Pass) and A.M.I.E

PARBIN SINGH

KATSON  
BOOKS

# A TEXTBOOK OF ENGINEERING AND GENERAL GEOLOGY

[For B.E. Civil, Mining & Metallurgical Engineering, B.Sc. (Pass) & A.M.I.E. Courses]

BY

**PROF. PARBIN SINGH**

*M.Sc., M.I.S.T.E*

Formerly: Professor & Head, Training & Placement,  
Regional Engineering College, Srinagar, Kashmir

**Founder Principal**

Government College of Engineering & Technology, Jammu.

**Founder Principal & Technical Advisor**

M.B.S.College of Engineering & Technology, Babliana, Jammu

**EIGHTH REVISED EDITION**

**S.K. KATARIA & SONS<sup>®</sup>**

**PUBLISHERS OF ENGINEERING & COMPUTER BOOKS**

4885/109, Prakash Mahal, Dr. Subhash Bhargava Lane,  
Opposite Delhi Medical Association, Daryaganj, New Delhi-110002

# CONTENTS

<b>1. INTRODUCTION</b> .....	<b>1—17</b>	<b>B. Geological Work of Wind</b> .....	<b>47</b>
1.1. Introduction .....	1	3.4. Introduction .....	47
1.1.1. The Stellar System .....	1	3.4.1. Wind Erosion .....	47
1.1.2. The Solar System .....	1	3.4.2. Sediment Transport by Wind .....	50
1.2. Parts of the Earth—As a Planet .....	4	3.4.3. Deposition By Wind .....	51
1.2.1. The Atmosphere .....	5	3.4.4. Engineering Considerations .....	54
1.2.2. The Lithosphere .....	7	<b>4. GEOLOGICAL WORK OF WATER</b> .....	<b>56—94</b>
1.2.3. The Hydrosphere .....	9	4.1. Introduction .....	56
1.3. Earth Sciences .....	10	<b>A. Work of Streams And Rivers</b> .....	<b>56</b>
1.3.1. Subdivisions of Geology .....	10	4.2. Terminology .....	56
1.3.2. Allied Sciences .....	11	4.3. Sources of Stream Water .....	57
1.4. Scope of Engineering Geology .....	13	4.4. River Profile .....	57
1.4.1. Geology in Construction Jobs .....	13	4.5. Geological Work .....	58
1.4.2. Geology in Water Resources Development .....	15	4.6. Methods of River Erosion .....	59
1.5. Geology in Town and Regional Planning ..	16	4.7. Rate of River Erosion .....	60
<b>2 THE EARTH</b> .....	<b>18—34</b>	4.8. Features of Stream Erosion .....	61
<b>A. Origin of Earth</b> .....	<b>18</b>	4.9. Sediment Transport By Rivers .....	68
2.1. Introduction .....	18	4.9.1. Types of Load .....	68
2.2. Fundamental Regularities .....	19	4.9.2. Grading of Streams .....	69
2.3. Theories of Origin .....	20	4.10. Deposition By Rivers .....	70
2.3.1. The Nebular Hypothesis .....	20	4.10.1. The Process .....	70
2.3.2. The Tidal Hypothesis .....	21	4.10.2. Types of Fluvial Deposits .....	70
2.3.4. The Gas-Dust Cloud Hypothesis .....	22	4.11. River Meandering .....	74
<b>B. Age of the Earth</b> .....	<b>23</b>	4.12. Normal Cycle of Erosion .....	75
2.4. Introduction .....	23	4.13. Stream And Drainage Patterns .....	78
2.4.1. Old Methods .....	24	4.14. Floods .....	80
2.4.1.1. New Methods .....	24	4.14.1. Causes .....	80
<b>C. Internal Structure of the Earth</b> .....	<b>28</b>	4.14.2. Magnitude And Frequency .....	80
2.5. Introduction .....	28	4.14.3. Flood Control .....	81
2.5.1. Seismological Evidence .....	28	<b>B. Geological Work of Sea</b> .....	<b>81</b>
<b>3. GEOLOGICAL WORK OF NATURAL AGENCIES</b> .....	<b>35—55</b>	4.15. Terminology .....	81
3.1. Introduction .....	35	4.16. Geological Work .....	82
3.1.1. Terminology .....	36	4.17. The Sea Waves And Currents .....	83
3.2. Climate and Geological Work .....	37	4.18. Marine Erosion .....	84
<b>A. Geological Work of Atmosphere (Rock Weathering)</b> .....	<b>38</b>	4.19. Features of Marine Erosion .....	84
3.3. General .....	38	4.20. Marine Deposition .....	85
3.3.1. Mechanical (Physical) Weathering .....	39	4.21. Shore Control Problems .....	88
3.3.2. Chemical Weathering .....	41	<b>C. Work of Groundwater</b> .....	<b>89</b>
3.3.3. Role of Plants and Organisms .....	43	4.22. Groundwater .....	89
3.3.4. Factors Affecting Weathering .....	44	4.23. Chemical Work of Groundwater .....	89
3.3.5. Resistance to Weathering .....	44	4.24. Deposition By Groundwater .....	91
3.3.6. Products of Weathering .....	45	4.25. Mechanical Work .....	92
3.3.7. Engineering Considerations .....	46	<b>5. GEOLOGICAL WORK OF GLACIERS</b> .....	<b>95—103</b>
		5.1. Introduction .....	95
		5.2. Glacial Morphology .....	96

5.3.	Types of Glaciers .....	97	7.8.1.	Terminology .....	152
5.4.	Geological Work of Glaciers .....	98	7.9.	Classification .....	153
5.5.	Glacial Erosion .....	98	7.10.	Occurrence of Joints .....	156
5.6.	Rate of Glacial Erosion .....	98	7.11.	Origin of Joints .....	157
5.7.	Features of Glacial Erosion .....	99	7.12.	Engineering Considerations .....	158
5.8.	Glacial Transport .....	102	<b>Part E. Other Structural Features .....</b>	<b>159</b>	
5.9.	Movement of Glacier .....	102	7.13.	Unconformity .....	159
5.10.	Glacial Deposits .....	102	7.13.1.	Definition .....	159
5.11.	Morphological Notes On Glacial Deposits .....	103	7.13.2.	Origin .....	159
5.12.	Glaciations in The Past .....	105	7.13.3.	Types .....	160
5.12.1.	Ice Ages .....	105	7.13.4.	Detection of Unconformity .....	162
5.13.	Engineering Considerations .....	107	7.13.5.	Engineering Considerations .....	162
<b>6.</b>	<b>STRUCTURAL FEATURES OF ROCKS .....</b>	<b>109—132</b>	7.14.	Examples of Faults .....	162
<b>Part A. General .....</b>	<b>109</b>		<b>8.</b>	<b>PHYSIOGRAPHIC FEATURES .....</b>	<b>165—195</b>
6.1.	Introduction .....	109	8.1.	Introduction .....	165
6.2.	Primary And Secondary Structures .....	110	8.2.	Mountains .....	165
6.3.	Some Basic Terms .....	110	8.2.1.	Terminology .....	165
<b>Part B. Folds And Folding .....</b>	<b>115</b>		8.2.2.	Classification of Mountains .....	166
6.4.	Introduction .....	115	8.2.3.	Origin of Folded Mountains (Orogeny) .....	168
6.5.	Parts of A Fold .....	115	8.2.4.	Indian Mountain Systems .....	170
6.6.	Classification of Folds .....	116	8.3.	Theory of Plate Tectonics .....	172
6.6.1.	Position of Axial Plane .....	118	8.3.1.	The Lithospheric Plates .....	172
6.6.2.	Degree of Compression .....	120	8.3.2.	Movement of Plates .....	173
6.6.3.	Behaviour With Depth .....	121	8.3.3.	Global Effects .....	175
6.6.4.	Relative Curvature .....	122	8.4.	Valleys .....	177
6.6.5.	Plunge As Basis .....	123	8.4.1.	Definition .....	177
6.6.6.	Profile of The Fold Surface .....	124	8.4.2.	Erosional Valleys .....	177
6.6.7.	Mode of Occurrence .....	124	8.4.3.	Development of a River Valley .....	177
6.6.8.	Miscellaneous Types .....	126	8.4.4.	Development of a Glacial Valley .....	179
6.7.	Examples of Folds .....	127	8.4.5.	Tectonic Valleys .....	179
6.8.	Causes of Folding .....	128	8.4.6.	Indian Examples .....	180
6.9.	Engineering Considerations .....	130	8.5.	Lakes .....	180
<b>7.</b>	<b>STRUCTURAL FEATURES OF ROCKS .....</b>	<b>133—164</b>	8.5.1.	Introduction .....	180
<b>Part C. Faults And Faulting .....</b>	<b>133</b>		8.5.2.	Size And Shape .....	181
7.1.	Introduction .....	133	8.5.3.	Classification And Origin .....	181
7.2.	Fault Terminology .....	134	8.5.4.	Origin of Lake Basins .....	182
7.3.	Classification of Faults .....	138	8.5.5.	Geological Work of Lakes .....	183
7.3.1.	Apparent Movement As Basis .....	139	8.5.6.	Importance of Lakes .....	184
7.3.2.	Attitude of Fault As Basis .....	143	8.5.7.	Indian Examples .....	184
7.3.3.	Slip As Basis .....	143	8.6.	Coastlines .....	184
7.3.4.	Mode of Occurrence As Basis .....	144	8.6.1.	Definition .....	184
7.4.	Effects of Faulting .....	145	8.6.2.	Classification .....	184
7.4.1.	On Outcrops .....	145	8.6.3.	The Indian Coastline .....	186
7.4.2.	On Topography .....	148	8.7.	Plains .....	186
7.5.	Recognition of Faulting .....	148	8.7.1.	Definitions .....	186
7.6.	Causes of Faulting .....	149	8.7.2.	Classification .....	187
7.7.	Engineering Considerations of Faults .....	150	8.7.3.	Surface Features of Plains .....	188
<b>Part D. Joints And Jointing .....</b>	<b>152</b>		8.7.4.	Examples .....	188
7.8.	Introduction .....	152	8.8.	Plateaus .....	188
			8.8.1.	Definition .....	188
			8.8.2.	Origin And Examples .....	188

8.9.	Volcanic Landforms .....	189	10.6.2.	Hemihedral Form .....	219
8.9.1.	General .....	189	10.6.3.	Hemimorphic Form .....	219
8.9.2.	Materials of Volcanoes .....	189	10.6.4.	Enantiomorphous Form .....	219
8.9.3.	Types of Eruptions .....	190	10.6.5.	Fundamental Form .....	220
8.9.4.	Distribution And Origin .....	193	10.6.6.	Open And Closed Forms .....	220
8.9.5.	Volcanic Landscape .....	194	10.7.	Crystal Classes And Systems .....	220
9.	<b>THE STUDY OF MINERALS</b> .....	196—212	10.8.	Isometric (Cubic) System .....	220
<b>Part A. Properties</b> .....		196	10.8.1.	Definition .....	220
9.1.	Introduction .....	196	10.8.2.	Axial Diagram .....	220
9.2.	Properties of Minerals .....	197	10.8.3.	Classes .....	221
9.3.	Physical Properties .....	197	10.8.4.	Forms .....	221
9.3.1.	Colour .....	197	10.8.5.	Other Classes .....	222
9.3.2.	Lustre .....	198	10.9.	Tetragonal System .....	223
9.3.3.	Streak .....	198	10.9.1.	Definition .....	223
9.3.4.	Hardness .....	199	10.9.2.	Axial Diagram .....	223
9.3.5.	Cleavage .....	200	10.9.3.	Normal Class (Zircon Type) .....	223
9.3.6.	Fracture .....	200	10.9.4.	Forms .....	223
9.3.7.	Tenacity .....	201	10.10.	Hexagonal System .....	224
9.3.8.	Structure (Form) .....	201	10.10.1.	Definition .....	224
9.3.9.	Specific Gravity .....	202	10.10.2.	Axial Diagram .....	225
9.3.10.	Form .....	205	10.10.3.	Divisions .....	225
9.3.11.	Miscellaneous .....	205	10.10.4.	Forms .....	225
9.4.	Optical Properties .....	206	10.10.5.	Symmetry .....	226
9.4.1.	General .....	206	10.10.6.	Forms .....	226
9.4.2.	Light .....	206	10.10.7.	Examples of Minerals .....	227
9.4.3.	Ordinary Light .....	206	10.11.	Orthorhombic System .....	227
9.4.4.	Polarised Light .....	206	10.11.1.	Definition .....	227
9.4.5.	Refractive Index .....	207	10.11.2.	Axial Diagram .....	227
9.4.6.	Dispersion .....	208	10.11.3.	Symmetry of Normal Class .....	228
9.4.7.	Total Reflection .....	208	10.11.4.	Forms .....	228
9.4.8.	Double Refraction .....	208	10.11.5.	Examples of Orthorhombic Minerals .....	229
9.4.9.	Birefringence .....	209	10.12.	Monoclinic System .....	229
9.4.10.	Isotropic Substances .....	209	10.12.1.	Definition .....	229
9.4.11.	Anisotropic Substances .....	209	10.12.2.	Axial Diagram .....	229
9.4.12.	Optic Axis .....	209	10.12.3.	Normal Class Symmetry .....	229
9.4.13.	Optical Sign .....	209	10.12.4.	Forms .....	230
9.5.	Polarising Microscope .....	210	10.13.	Triclinic System .....	231
10.	<b>THE STUDY OF MINERALS</b> .....	213—237	10.13.1.	Definition .....	231
<b>Part B. Crystallography</b> .....		213	10.13.2.	Axial Diagram .....	231
10.1.	Introduction .....	213	10.13.3.	Normal Class .....	231
10.2.	Elements of A Crystal .....	213	10.13.4.	Forms .....	231
10.2.1.	Crystal Faces .....	214	10.13.4.	Examples of Triclinic Minerals .....	232
10.2.2.	Interfacial Angle .....	214	10.14.	Twinning .....	232
10.3.	Symmetry .....	214	10.14.1.	Introduction .....	232
10.3.1.	A Plane of Symmetry .....	215	10.14.2.	Terminology .....	233
10.3.2.	An Axis of Symmetry .....	215	10.14.3.	Some Illustrations .....	233
10.3.3.	Centre of Symmetry .....	216	10.14.4.	Types of Twins .....	233
10.4.	Crystallographic Axes .....	216	10.15.	Common Twin Laws .....	234
10.4.1.	Axial Ratio .....	217	10.15.1.	Isometric System .....	234
10.5.	Parameters, Indices, Symbols .....	217	10.15.2.	Tetragonal System .....	235
10.6.	Forms .....	218	10.15.3.	Hexagonal System .....	235
10.6.1.	Holoheral Form .....	219	10.15.4.	Orthorhombic System .....	235

10.15.5. Monoclinic System .....	236	11.13.2. Quartz ( $\text{SiO}_2$ ) .....	254
10.15.6. Triclinic System .....	236	11.13.3. Corundum ( $\text{Al}_2\text{O}_3$ ) .....	256
<b>11. THE STUDY OF MINERALS</b> .....	<b>238—259</b>	11.13.4. Spinel ( $\text{MgAl}_2\text{O}_4$ ) .....	256
<b>Part C. Formation And Descriptive</b>		11.14. Carbonate Minerals .....	256
<b>Study of Minerals</b> .....	<b>238</b>	11.14.1. General .....	256
11.1. Introduction .....	238	11.14.2. Calcite $\text{CaCO}_3$ .....	257
11.2. Minerals From Magmas .....	238	11.14.3. Dolomite $\text{Ca, Mg (CO}_3)_2$ .....	257
11.3. Minerals From Gases .....	239	11.14.4. Magnesite $\text{MgCO}_3$ .....	257
11.4. Minerals Due to Recrystallisation .....	239	<b>12. STUDY OF ROCKS</b> .....	<b>260—289</b>
11.5. Minerals From Solutions .....	239	12.1. Introduction .....	260
11.6. Rock Forming Minerals .....	240	<b>Part A. Igneous Rocks</b> .....	<b>261</b>
11.7. The Silicate Group .....	240	12.2. Definition .....	261
11.7.1. General .....	240	12.3. Composition .....	262
11.7.2. Chemical Composition .....	240	12.4. Textures of Igneous Rocks .....	263
11.7.3. Atomic Structure .....	240	12.4.1. Factors Explaining Texture .....	263
11.8. The Felspar Group .....	243	12.4.2. Types of Textures .....	264
11.8.1. General .....	243	12.5. Structures of Igneous Rocks .....	266
11.8.2. Chemical Composition .....	243	12.5.1. Definition .....	266
11.8.3. Atomic Structure .....	243	12.5.2. Types .....	267
11.8.4. Crystallization .....	243	12.6. Forms of Igneous Rocks .....	269
11.8.5. Classification .....	243	12.6.1. Concordant Bodies .....	269
11.8.6. Physical Properties .....	244	12.6.2. Discordant Bodies .....	271
11.8.7. Description .....	244	12.6.3. Igneous Extrusions .....	273
11.9. Pyroxene Group .....	246	12.7. Classification of Igneous Rocks .....	273
11.9.1. General .....	246	12.7.1. Chemical Classification .....	274
11.9.2. Chemical Composition .....	246	12.7.2. Mineralogical Classification .....	275
11.9.3. Atomic Structure .....	246	12.7.3. Textural Classification .....	276
11.9.4. Crystallization .....	246	12.7.4. Tabular Classification .....	276
11.9.5. Classification .....	246	12.8. Formation of Igneous Rocks .....	278
11.9.6. Physical Properties .....	247	12.8.1. The Source-Magma .....	278
11.9.7. Descriptive .....	247	12.8.2. The Process-Crystallization .....	279
11.10. Amphibole Group .....	248	12.8.3. Phenomena-Associated	
11.10.1. General .....	248	With Crystallisation .....	279
11.10.2. Chemical Composition .....	248	12.8.4. Differentiation—Causes	
11.10.3. Atomic Structure .....	249	of Diversity .....	281
11.10.4. Crystallization .....	249	12.9. Important Igneous Rocks .....	282
11.10.5. Classification .....	249	12.10. Engineering Importance .....	288
11.10.6. Physical Properties .....	249	<b>13. STUDY OF ROCKS</b> .....	<b>290—312</b>
11.10.7. Descriptive .....	249	<b>Part B. Sedimentary Rocks</b> .....	<b>290</b>
11.11. Comparative Study of		13.1. Introduction .....	290
Pyroxenes And Amphiboles .....	251	13.2. Formation .....	290
11.12. Mica Group .....	252	13.3. Environment of Formation .....	292
11.12.1. General .....	252	13.4. Mineralogical Composition .....	293
11.12.2. Chemical Composition .....	252	13.5. Textures of Sedimentary Rocks .....	294
11.12.3. Atomic Structure .....	252	13.6. Structures of Sedimentary Rocks .....	295
11.12.4. Crystallization .....	252	13.6.1. Mechanical Structures .....	295
11.12.5. Classification .....	253	13.6.2. Chemical Structures .....	297
11.12.6. Physical Properties .....	253	13.6.3. Organic Structures .....	297
11.12.7. Descriptive .....	253	13.7. Classification of Sedimentary Rocks .....	297
11.13. Oxide Minerals .....	254	13.8. Important Sedimentary Rocks .....	301
11.13.1. General .....	254	13.9. Engineering Importance .....	311

<b>14. STUDY OF ROCKS</b> .....	313—331		
<b>Part C. Metamorphic Rocks</b> .....	<b>313</b>		
14.1. Introduction .....	313		
14.2. Factors of Metamorphism .....	313		
14.3. Kinds of Metamorphism .....	314		
14.4. Metasomatism .....	316		
14.5. Effects of Metamorphism .....	316		
14.6. Examples of Metamorphic Changes .....	317		
14.6.1. Igneous Rocks .....	318		
14.6.2. Sedimentary Rocks .....	318		
14.7. Metamorphic Grades, Zones And Facies .....	320		
14.7.1. Metamorphic Grades .....	320		
14.7.2. Metamorphic Zones .....	321		
14.7.3. Metamorphic Facies .....	321		
14.8. Metamorphic Rocks .....	322		
14.8.1. Definition.....	322		
14.8.2. Mineralogical Composition .....	322		
14.8.3. Textures of Metamorphic Rocks.....	322		
14.8.4. Structures of Metamorphic Rocks .....	323		
14.8.5. Rock Cleavage .....	324		
14.8.6. Schistosity .....	324		
14.8.7. Foliation .....	324		
14.9. Classification of Metamorphic Rocks .....	325		
14.10. Important Metamorphic Rocks .....	325		
14.11. Comparative Study .....	328		
14.12. Rocks Also Considered Metamorphic .....	329		
<b>15. ECONOMIC MINERAL DEPOSITS.</b> 332—358			
15.1. Introduction .....	332		
15.2. Origin of Ore Deposits .....	333		
15.3. Igneous Deposits .....	333		
15.3.1. Magmatic Deposits .....	333		
15.3.2. Pegmatite Deposits .....	335		
15.3.3. Hydrothermal Deposits .....	335		
15.4. Metasomatic (Replacement) Deposits .....	337		
15.5. Sedimentary Deposits .....	337		
15.6. Metamorphic Deposits .....	339		
15.7. Mineral Resources of India .....	339		
15.7.1. Introduction .....	339		
15.7.2. Metallic Minerals .....	340		
15.7.3. Non-Metallic Minerals .....	344		
15.7.4. The Nuclear Minerals .....	347		
15.7.5. Other Minerals .....	347		
15.8. Coal .....	348		
15.8.1. Introduction .....	348		
15.8.2. Chemical Composition .....	348		
15.8.3. Classification .....	348		
15.8.4. Formation of Coal .....	351		
15.8.5. Indian Occurrences .....	352		
15.9. Petroleum .....	353		
15.9.1. Definition .....	353		
15.9.2. Chemical Composition .....	353		
15.9.3. Origin of Petroleum .....	354		
15.9.4. Accumulation .....	356		
15.9.5. Indian Occurrences .....	357		
<b>16. STRATIGRAPHY OF INDIA</b> .....	<b>359—408</b>		
<b>Part A. General</b> .....	<b>359</b>		
16.1. Introduction .....	359		
16.2. Principles of Correlation .....	360		
16.2.1. Correlation .....	360		
16.2.2. Objectives .....	360		
16.2.3. Elements of Correlation .....	360		
16.2.4. Methods .....	363		
16.2.5. Difficulties in Correlation .....	365		
16.3. A Note On Fossils .....	365		
16.3.1. Introduction .....	365		
16.3.2. Preservation .....	366		
16.3.3. Importance of Fossils .....	366		
<b>Part B. Important Indian Groups And Systems</b> .....	<b>368</b>		
16.4. General .....	368		
16.5. The Archean Groups .....	368		
16.5.1. Introduction .....	368		
16.5.2. Distribution .....	369		
16.5.3. Lithology .....	370		
16.6. Dharwar System .....	371		
16.6.1. Definition And Distribution .....	371		
16.6.2. Lithology .....	371		
16.6.3. Classification .....	371		
16.6.4. Life .....	371		
16.6.5. Economic Importance of Archean Group .....	372		
16.7. The Cuddapah System .....	372		
16.7.1. Definition And Distribution .....	372		
16.7.2. Cuddapah Basin of Andhra .....	373		
16.7.3. Cuddapah Rocks of Madhya Pradesh .....	373		
16.7.4. The Delhi System .....	374		
16.7.5. Other Cuddapah Equivalent in Extra-Peninsula .....	375		
16.7.6. Economic Minerals of Cuddapah System .....	375		
16.8. The Vindhyan System .....	375		
16.8.1. Definition And Distribution .....	375		
16.8.2. Lithology .....	375		
16.8.3. Life .....	376		
16.8.4. Stratigraphic Classification .....	376		
16.8.5. Kumool System .....	378		
16.8.6. Economic Minerals of Vindhyan System .....	378		

16.9.	The Palaeozoic Group (Cambrian to Permian) .....	378	16.22.	The Tertiary Group .....	396
	16.9.1. Introduction .....	378		16.22.1. Introduction .....	396
16.10.	The Cambrian System .....	379		16.22.2. Distribution .....	397
	16.10.1. Definition And Distribution .....	379	16.23.	The Eocene System .....	398
	16.10.2. Cambrian of Spiti (Haimanta System) .....	379		16.23.1. Definition And Distribution .....	398
	16.10.3. The Cambrian of Kashmir .....	380		16.23.2. Classification .....	398
	16.10.4. Cambrian of Salt Range .....	380		16.23.3. Lithology .....	398
16.11.	The Ordovician System .....	381		16.23.4. Other Examples of Eocene .....	399
16.12.	The Silurian System .....	381		16.23.5. Life .....	399
16.13.	Devonian System .....	381	16.24.	The Oligocene-Lower Miocene Systems .....	399
16.14.	The Carboniferous System .....	382		16.24.1. General .....	399
	16.14.1. Carboniferous of Spiti .....	382	16.25.	The Siwalik System (Middle Miocene to Lower Pleistocene) .....	401
	16.14.2. Carboniferous of Kashmir .....	382		16.25.1. Definition And Distribution .....	401
16.15.	The Permian System .....	383		16.25.2. Lithology .....	401
	16.15.1. Kashmir .....	383		16.25.3. Classification .....	401
	16.15.2. Salt Range .....	383		16.25.4. Life .....	402
16.16.	The Mesozoic Group .....	384		16.25.5. Structure .....	402
	16.16.1. Introduction .....	384		16.25.6. Origin .....	402
	16.16.2. The Mesozoic of Tethys Himalayas .....	385	16.26.	The Pleistocene System .....	403
16.17.	The Triassic System .....	385		16.26.1. Definition And Distribution .....	403
	16.17.1. Spiti .....	385		16.26.2. Indo-Gangetic Alluvium .....	403
	16.17.2. Kashmir .....	386		16.26.3. Lithological Characters .....	403
	16.17.3. Salt Range .....	386		16.26.4. Origin .....	403
16.18.	The Jurassic System .....	386		16.26.5. The Karewas of Kashmir .....	404
	16.18.1. Spiti .....	387		16.26.6. The Desert (Thar of Rajasthan) .....	405
	16.18.2. Kashmir .....	387		16.26.7. The Laterite Deposits .....	406
	16.18.3. Salt Range .....	387			
	16.18.4. The Jurassic of Kutch .....	387	<b>17. ENGINEERING PROPERTIES OF ROCKS .....</b>	<b>409—427</b>	
16.19.	The Cretaceous System .....	388	17.1.	Introduction .....	409
	16.19.1. Definition And Distribution .....	388	<b>Part A. Rocks As Materials For Construction .....</b>	<b>410</b>	
	16.19.2. The Marine Facies of Cretaceous System .....	388	17.2.	Building Stones .....	410
	16.19.3. The Fluvialite Cretaceous (The Lameta Series) .....	390		17.2.1. Introduction .....	410
16.20.	Deccan Traps .....	390		17.2.2. Properties .....	410
	16.20.1. Definition And Distribution .....	390		17.2.3. Important Building Stones .....	416
	16.20.2. Petrology .....	391	17.3.	Road Materials .....	417
	16.20.3. Structural Features .....	391		17.3.1. Definition .....	417
	16.20.4. Classification .....	391		17.3.2. Qualities of Aggregates .....	418
	16.20.5. Life .....	391		17.3.3. Common Road Aggregates .....	420
	16.20.6. Origin .....	392	<b>Part B. Rocks As Sites For Construction .....</b>	<b>421</b>	
	16.20.7. Age .....	392	17.4.	Introduction .....	421
16.21.	The Gondwana Group .....	392	17.5.	Laboratory Testing of Rocks .....	422
	16.21.1. Introduction .....	392		17.5.1. Uniaxial Compressive Strength .....	422
	16.21.2. Distribution .....	393		17.5.2. Tensile Strength .....	422
	16.21.3. Classification .....	393		17.5.3. Shear Strength .....	422
	16.21.4. Lithology .....	394		17.5.4. Modulus of Elasticity .....	423
	16.21.5. Life .....	395		17.5.5. Triaxial Test .....	423
	16.21.6. Economic Importance .....	396	17.6.	Field And in-Situ Test For Rocks .....	424
	16.21.7. Origin of Gondwana Rocks .....	396		17.6.1. Jack Test .....	425
				17.6.2. Shear Test .....	425
				17.6.3. Seismic Test .....	426

<b>18. GROUNDWATER</b> .....	<b>428—455</b>	19.9. Earthquake Problems in India .....	474
18.1. Introduction .....	428	19.9.1. General .....	474
18.2. Groundwater And Man .....	428	19.9.2. Indian Earthquakes .....	475
18.3. Sources of Groundwater .....	429	19.9.3. World Seismicity .....	476
18.4. Hydrological Cycle .....	430	19.10. Tsunami .....	477
18.5. Zonal Distribution of Subsurface Water .....	431	<b>20. MASS MOVEMENTS</b> .....	<b>480—496</b>
18.6. Water Bearing Qualities of Rocks .....	432	20.1. Introduction .....	480
18.6.1. Types of Aquifer .....	432	20.2. Classification .....	480
18.6.2. Aquifer Functions .....	433	20.3. Causes of Mass Movement .....	483
18.6.3. Flow in Aquifer .....	435	20.4. Notes on Types of Mass Movements .....	489
18.7. Artesian Aquifer .....	437	20.4.1. Soil Creep .....	489
18.8. Different Rocks As Aquifers .....	438	20.4.2. Solifluction .....	490
18.9. Groundwater Exploration .....	440	20.4.3. Earth And Mudflows .....	490
18.9.1. Geological Investigations .....	440	20.4.4. Slides .....	490
18.9.2. Geophysical Investigations .....	441	20.5. Subsidence .....	492
18.9.3. Gravimetric Surveys .....	443	20.6. Monitoring and Control of	
18.9.4. Electromagnetic Surveys .....	444	Mass Movements .....	492
18.9.5. A Note on Logs of Boreholes .....	444	<b>21. SOILS</b> .....	<b>497—509</b>
18.10. Wells .....	445	21.1. Introduction .....	497
18.10.1. Types .....	445	21.1.1. Constitution .....	497
18.10.2. Basic Concepts .....	446	21.2. Physical Properties .....	497
18.11. Springs .....	447	21.3. Engineering Properties .....	499
18.12. Engineering Considerations .....	448	21.4. Soil Formation .....	501
18.13. Groundwater Potential of India .....	451	21.5. Soil Profile .....	502
